WHERE IS TAIWAN?

Do you know that Taiwan is smaller than Tasmania?
Taiwan is a small island in East Asia. Roughly 6,700 kilometers from Brisbane. With over 23 million people living on just 36,000 square kilometers.

In Taiwan, food is everywhere.

From night markets to home kitchens, eating isn't rushed and it's never just about filling your stomach. Meals are meant to be shared, flavours are comforting, and every dish carries a bit of everyday life with it.

That's the kind of food we grew up with — simple, warm, and full of flavour.

And that's the feeling we hope you get here!
